Professional Summary

MERN Stack Developer with strong hands-on experience in JavaScript, API development, authentication systems, and scalable full-stack applications. Skilled in writing clean, maintainable code and delivering production-level projects. Adaptable, quick learner with solid debugging skills and the ability to work under deadlines. Passionate about building reliable and user-focused applications.

Education

Diploma in Electronics Engineering

2020–2023

Govt. Polytechnic College Meenangadi, Wayanad, Kerala

Technical Skills

- **Programming:** JavaScript, TypeScript, HTML, CSS
- **Frontend:** React.js, Redux, Tailwind CSS
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, Mongoose, PostgreSQL
- **Tools:** Git, GitHub, Postman, VS Code
- **Platforms:** AWS EC2, Render, Vercel, Netlify
- **Core Skills:** REST API Development, JWT Authentication, Razorpay Integration, Cloud Deployment, State Management, Error Handling

Projects

E-Commerce Web Application (MERN Stack)

Source Code

- Built a full-scale e-commerce platform with user authentication, cart, order management, offers, coupons, and admin dashboard.
- Integrated Razorpay payments, OTP login, Google OAuth, and wallet-based transactions.
- Developed secure backend APIs, optimized MongoDB schemas, and implemented role-based access control.

- Deployed on AWS EC2 with Nginx, SSL, and firewall configurations for secure production use.

Event Management Application (MERN Stack)

Source Code

- Developed an event booking and management system with user and admin modules.
- Implemented real-time chat using Socket.io for instant messaging.
- Built dashboards with charts, analytics, and event monitoring using Chart.js.
- Added secure booking workflow, image uploads, payments, and authorization logic.

Mini Projects

- **Netflix Clone** – Frontend UI with dynamic content rendering.
- **OLX Clone** – User authentication and CRUD-based product posting.
- **Portfolio Website** – React + Tailwind responsive personal website.

Professional Training

Brocamp — Software Development Program

2023–2024

- Completed industry-oriented full-time MERN stack training.
- Practiced agile workflows, code reviews, debugging, and deployment.
- Built multiple real-world projects under strict deadlines and performance evaluations.

Strengths

- Strong problem-solving and debugging capabilities.
- Fast learner and adaptable to new technologies.
- Ability to work under pressure and meet deadlines.
- Committed to writing clean and efficient code.
