

Jyothish T M

MERN Stack Developer

+91-8590020234 | jothishtm2002@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

Summary

A results-driven MERN Stack Developer with strong hands-on experience in JavaScript and full-stack application development. Possesses in-depth knowledge of building scalable REST APIs, secure authentication systems, and production-ready web applications. Demonstrates a strong commitment to writing clean, maintainable, and efficient code while solving complex problems through effective debugging. Continuously adapts to new tools, frameworks, and industry best practices to deliver reliable, user-focused solutions. Adept at working under deadlines and contributing effectively in collaborative development environments.

Skills

Programming Languages: JavaScript, TypeScript

Frontend Technologies: HTML, CSS, React.js, Redux

Backend Technologies: Node.js, Express.js

Databases: MongoDB, PostgreSQL

ORM/ODM: Mongoose

Deployment & Hosting: AWS EC2, Render, Vercel, Netlify

Development Tools: Git, GitHub, Postman, VS Code

Proficient In: REST API Development, JWT Authentication, Razorpay Integration, Cloud Deployment

Familiar With: Role-Based Access Control, Error Handling, Debugging, Scalable Application Design

Projects

E-Commerce Web Application (MERN Stack)

[Source](#)

- Built a full-scale e-commerce platform with authentication, cart, order management, offers, coupons, and an admin dashboard.
- Integrated Razorpay payments, OTP-based login, Google OAuth, and wallet-based transactions.
- Developed secure REST APIs, optimized MongoDB schemas, and implemented role-based access control.
- Deployed the application on AWS EC2 using Nginx, SSL, and production security configurations.

Event Management Application (MERN Stack)

[Source](#)

- Developed an event booking and management system with user and admin modules.
- Implemented real-time chat functionality using Socket.io.
- Built analytics dashboards and visual reports using Chart.js.
- Added secure booking workflows, image uploads, payment handling, and authorization logic.

Mini Projects

- Netflix Clone – Frontend UI with dynamic content rendering.
- OLX Clone – User authentication and CRUD-based product posting.
- Portfolio Website – Responsive personal website built with React and Tailwind CSS.

Professional Training

Brocamp — Software Development Program

2024 – Present

- Completed industry-oriented full-time MERN Stack training.
- Practiced agile workflows, code reviews, debugging, and cloud deployment.
- Built multiple real-world applications under strict deadlines and performance evaluations.

Education

Diploma in Electronics Engineering

2020 – 2023

Govt. Polytechnic College Meenangadi, Wayanad, Kerala

Strengths

- Strong problem-solving and debugging skills.
- Fast learner and adaptable to new technologies.
- Ability to work under pressure and meet deadlines.
- Focused on writing clean, maintainable, and efficient code.

Declaration

I hereby declare that the information provided above is true and correct to the best of my knowledge.
